Quotation reference	NTP-RN-2026-04417
Issued	12 August 2026
Valid until	26 September 2026
Prepared for	Merrivale Assurance Group plc
Account manager	D. Okonkwo
Customer reference	PO to be raised against MSA-2021-0088

1. Subscription renewal — summary

This quotation covers renewal of the customer's VMware subscription entitlement across the Manchester and Leeds data centres. The current subscription term **expires on 30 November 2026**. Renewal must be completed on or before that date to avoid a lapse in support entitlement and the late-renewal uplift set out in section 5.

Total licensed capacity under this quotation is **2,112 physical cores** across 44 hosts. Core counts have been taken from the configuration data supplied by the customer on 3 August 2026 and should be reconfirmed before a purchase order is raised.

2. Licensed products and rates

Product	Hosts	Cores	Rate / core / yr	Annual
VMware Cloud Foundation 9.1	32	1,536	USD 172.00	USD 264,192.00
vSphere Foundation 9.1	12	576	USD 118.00	USD 67,968.00
Total	44	2,112	USD 157.27 blended	USD 332,160.00

Rates are per physical core per year and are exclusive of VAT. The blended rate above is stated for convenience and is **USD 157.27 per core per year**. Licensing is subject to a minimum of 16 cores per CPU socket; based on the configuration supplied, no socket falls below that threshold and no minimum uplift arises.

3. Term and totals

Committed term	3 years, commencing 1 December 2026
Annual subscription	USD 332,160.00
Total term value	USD 996,480.00
Prior term annual	USD 214,940.00 (expiring 30 November 2026)
Increase on prior term	54.5%
Support tier	Production Support, 24x7, included

4. Commercial terms

4.1 Renewal pricing. Pricing is held for the committed term only. **No renewal price cap is offered under this quotation**, and no undertaking is given as to pricing at the next renewal cycle. Any subsequent term will be quoted at the rates then in force.

4.2 Entitlement adjustment. Entitlement is fixed for the committed term. **Mid-term reductions are not permitted** and no ramp-down structure is available against this quotation. Additional cores may be added at the rates in section 2, co-terminating with the committed term.

4.3 Growth cores. Cores added during the term are charged at the prevailing list rate at the date of addition. No price hold is offered on growth capacity.

4.4 Portability. Portability of subscription entitlement to hyperscaler platforms is governed by the vendor's then-current programme terms. It is **not warranted under this quotation** and the customer should seek written confirmation from the vendor before relying on it in any migration plan.

5. Exclusions and customer notes

5.1 Perpetual licences. Nine hosts in the Leeds facility remain on **perpetual vSphere 7 Enterprise Plus licences** with lapsed support. These are **not covered by this quotation** and cannot be renewed under the current programme. They are recorded here so the customer's entitlement position is complete; a separate conversation is required.

5.2 Late renewal. Where renewal completes after 30 November 2026, a reinstatement uplift of 20% of the first-year subscription applies, together with any lapsed-period charge assessed by the vendor.

5.3 vSAN capacity. vSAN entitlement is included with VMware Cloud Foundation at 1 TiB per core. Capacity in excess of the included allowance is chargeable and is not quoted here.

5.4 Configuration data. Core counts derive from customer-supplied data and have not been independently audited. Northgate accepts no liability for shortfall arising from an inaccurate declaration.

6. Payment and administration

Payment terms	30 days net from invoice date
Invoicing	Annually in advance, first invoice on activation
Purchase order	Required; quote reference must appear on the PO
Currency	USD. FX at the rate prevailing on the invoice date
Delivery	Electronic. Entitlement keys issued within 5 working days
Escalation	renewals@northgate-tp.example, then account manager

This quotation is issued subject to Northgate Technology Partners' standard terms of business and to the vendor's end user licence agreement. It does not constitute an offer capable of acceptance until countersigned. Figures are exclusive of VAT and of any third-party professional services. E&OE.
